The Leukemia and Lymphoma Society

The Leukemia & Lymphoma Society (LLS) is the largest voluntary health organization dedicated to funding research, finding cures and ensuring access to treatments for blood cancer patients.

Since 1949 LLS has been on the forefront of blood cancer advances such as chemotherapies and stem cell transplantation leading the way to the targeted therapies and immunotherapies that are saving thousands of lives today. LLS is changing the landscape of cancer with more than 300 active research projects that explore different avenues of new and adventurous research.

Whenever we talk about cancer, we always use the same word. Someday. Someday there will be a cure. Someday we won't lose the people we love. But when is someday? With LLS's research partnerships and collaborations with pharmaceutical and biotechnology companies, patient support services and advocates working for blood cancer patients everywhere, **someday is today.**

Wine About Cancer

Join over 400 vino lovers on Friday, May 21st, 2021 at the Exploration place for our fourth annual Wine About Cancer - a night full of food from various local restaurants and unlimited tastings of over 30 wines throughout the museum. Early bird tickets are \$80 and increase to \$90 the week before the event. This year's event will also support and be promoted by the 2021 Man and Woman of the Year candidates.

All proceeds go to the Mid-America Chapter of the Leukemia and Lymphoma Society to fund blood cancer research and to go directly back into helping local families.
